

Client Relationship Summary (Form CRS)

JNBA Financial Advisors, LLC (“we”, “us” or “our”) is registered with the U.S. Securities Exchange Commission (“SEC”) as an investment adviser. Brokerage and investment advisory services and fees differ and it is important that you understand the differences.

Free and simple tools are available to research firms and financial professionals at www.investor.gov/crs. The site also provides educational materials about broker-dealers, investment advisers, and investing.

Relationships and Services

CONVERSATION STARTERS:

- ▲ Given my financial situation, should I choose an investment advisory service? Why or why not?
- ▲ How will you choose investments to recommend to me?
- ▲ What is your relevant experience, including your licenses, education and other qualifications? What do these qualifications mean?

WHAT INVESTMENT SERVICES AND ADVICE CAN YOU PROVIDE ME?

JNBA provides financial advisory services that include discretionary investment management services and financial life planning services to individuals, trusts and estates (our “retail investors”).

When a retail investor engages us to provide investment management services we shall monitor, on a continuous basis, the investments in the accounts over which we have authority as part of our investment management service. Furthermore, when engaged on a discretionary basis, we shall have the authority, without prior consultation with you (unless you impose restrictions on our discretionary authority), to buy, sell, trade and allocate the investments within your account(s) consistent with your investment objectives. Our authority over your account(s) shall continue until our engagement is terminated. We do not sell any investment products, nor do we limit the scope of our investment management services to proprietary products or a limited group or type of investment.

We also offer financial life planning services as part of our standard financial advisory engagement. These services focus on developing a personalized financial life plan that can include helping develop strategies with other professionals in the areas of tax, estate, risk management and business consulting. We may be engaged to provide financial life planning services on a separate fee basis. When we provide financial life planning services, we rely upon the information provided by the client for our financial analysis to be current and accurate.

Additional Information: For more detailed information about our Advisory Business and the Types of Clients we generally service, please See Items 4 and 7, respectively in our ADV Part 2A.

Fees, Costs, Conflicts, and Standard of Conduct

CONVERSATION STARTERS:

- ▲ Help me understand how these fees and costs might affect my investments. If I give you \$10,000 to invest, how much will go to fees and costs, and how much will be invested for me?

WHAT FEES WILL I PAY?

We provide our financial advisory services on a transparent, fee-only basis. When engaged to provide investment management services, we shall charge a fee calculated as a percentage of your assets under our management (our “AUM Fee”) including accrued interest on bonds and dividends payable on mutual funds. We generally require a minimum annualized fee of \$10,000 for investment management services. However, we may waive our minimum, but in such circumstances the client may be subject to a fee more than our typical 1.00% maximum annual AUM Fee. Once a client has over \$1,000,000 in assets under management, unless otherwise agreed, we will revert to billing based upon our stated fee schedule.

We typically deduct our AUM Fee from one or more of your accounts, in advance, on a quarterly basis. Because our AUM Fee is calculated as a percentage of your assets under management, the more assets you have under JNBA management, the more you will pay us for our services. However, as assets under management grow the annual AUM Fee is reduced to 0.85% beginning at \$3,000,001 and so forth. We have an incentive to encourage you to increase the assets maintained in accounts we manage as well as help you grow your assets. Our financial life planning services are provided as a part of this fee.

Although not our general practice, we can offer our financial life planning services on either a fixed fee basis, generally between \$1,500 and \$10,000 and, even less common, an hourly rate between \$125 to \$250 per hour. The fee for subsequent work shall be agreed to prior to commencing the engagement.

--continued on next page--

Fees, Costs, Conflicts, and Standard of Conduct Continued

Other Fees and Costs: Your investment assets will be held with a qualified custodian. Custodians generally charge brokerage commissions and/or transaction fees for effecting certain securities transactions. In addition, relative to all mutual fund and exchange traded fund purchases, certain charges will be imposed at the fund level (e.g., management fees and other fund expenses).

You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce any amount of money you make on your investments over time. Please make sure you understand what fees and costs you are paying.

Additional Information: For more detailed information about our fees and costs related to our management of your account, please See Item 5 in our ADV Part 2A.

WHAT ARE YOUR LEGAL OBLIGATIONS TO ME WHEN ACTING AS MY INVESTMENT ADVISER? HOW ELSE DOES YOUR FIRM MAKE MONEY AND WHAT CONFLICTS OF INTEREST DO YOU HAVE?

When we act as your investment adviser, we must act in your best interest and not put our interest ahead of yours. This applies to all of our financial advisory services, including financial life planning services. We acknowledge that by charging an AUM Fee to compensate JNBA for all services provided inherently creates some conflicts with your interests. You should understand and ask us about our AUM Fee and how it could affect the investment advice we provide you. As stated previously, as client's AUM grows, the annual AUM Fee is reduced to 0.85% beginning at \$3,000,001 and so forth. Additionally, we may recommend a particular custodian to custody your assets, and we may receive support services and/or technologies from that same custodian to assist us in better monitoring your account.

Additional Information: For more detailed information about our conflicts of interest, please review our ADV Part 2A.

HOW DO YOUR FINANCIAL PROFESSIONALS MAKE MONEY?

Our financial professionals are compensated on a salary basis and based upon their individual professional ability may receive a performance bonus at year-end or quarter-end. These bonuses are based solely on the performance of our professionals and are not dependent on any investment product or offering. You can discuss your financial professional's compensation directly with your financial professional.

CONVERSATION STARTER:

▲ How might your conflicts of interest affect me, and how will you address them?

Disciplinary History

CONVERSATION STARTER:

▲ As a financial professional, do you have any disciplinary history? If so, for what type of conduct?

DO YOU OR YOUR FINANCIAL PROFESSIONALS HAVE LEGAL OR DISCIPLINARY HISTORY?

"No" with respect to the firm and a "Yes" with respect to the firm's financial professionals. We encourage you to visit www.investor.gov/CRS for a free and simple search tool to research our firm and our financial professionals.

Additional Information

CONVERSATION STARTER:

- ▲ Who is my primary contact person?
- ▲ Is he or she a representative of an investment adviser or broker-dealer?
- ▲ Who can I talk to if I have concerns about how this person is treating me?

Additional information about our firm is available on the SEC's website at www.adviserinfo.sec.gov. You may contact our Chief Compliance Officer at any time to request a current copy of our ADV Part 2A or our relationship summary. Our Chief Compliance Officer may be reached by phone: (952) 844-0995.

Item 4 **Advisory Business**

- A. JNBA Financial Advisors, LLC (the “Registrant”) is a limited liability company formed in January 2021 in the state of Delaware. The Registrant succeeded JNBA Financial Advisors, Inc. in January 2021. The Registrant is owned by Richard S. Brown through JNBA Financial Holdings, LLC. Mr. Brown is the Registrant’s Chief Executive Officer.
- B.

INVESTMENT ADVISORY SERVICES

The Registrant provides discretionary investment advisory services on a *fee-only* basis. The Registrant’s annual investment advisory fee is based upon a percentage (%) of the market value of the client’s assets placed under the Registrant’s management, including accrued interest on bonds and dividends payable on mutual funds, and shall generally be between 0.65% and 1.00%. Certain dividends payable on mutual funds will depend on the timing of information reported to the custodian by the fund companies. Additionally, there may be deposits or withdrawals made to the client’s account on the last billing day of the month that may not be reflected on custodian’s month end statement.

The Registrant’s annual investment advisory fee typically includes investment advisory services, and, to the extent specifically requested by the client, financial planning and consulting services. In the event that the client requires extraordinary planning and/or consultation services (to be determined in the sole discretion of the Registrant), Registrant may determine to charge for such additional services, the dollar amount of which shall be set forth in a separate written notice to the client.

* In limited circumstances and at the discretion of the Registrant, clients may engage the Registrant to provide investment management services on a stand-alone basis. When engaged in such capacity, the Registrant will not be responsible for providing financial planning and consulting services to the client as part of the engagement.

FINANCIAL PLANNING AND CONSULTING SERVICES (STAND-ALONE)

The Registrant provides financial planning and/or consulting services (including investment and non-investment related matters, including estate planning, insurance planning, etc.) on a stand-alone separate fee basis. Prior to engaging the Registrant to provide planning or consulting services, clients are generally required to enter into a *Financial Planning and Consulting Agreement* with Registrant setting forth the terms and conditions of the engagement (including termination), describing the scope of the services to be provided, and the portion of the fee that is due from the client prior to Registrant commencing services.

If requested by the client, Registrant may recommend the services of other professionals for implementation purposes. The client is under no obligation to engage the services of any such recommended professional. The client retains absolute discretion over all such implementation decisions and is free to accept or reject any recommendation from the Registrant.

If the client engages any recommended unaffiliated professional, and a dispute arises thereafter relative to such engagement, the client agrees to seek recourse exclusively from and against the engaged professional. At all times, the engaged licensed professional(s)

(i.e., attorney, accountant, insurance agent, etc.), and not the Registrant, shall be responsible for the quality and competency of the services provided.

It remains the client's responsibility to promptly notify the Registrant if there is ever any change in their financial situation or investment objectives for the purpose of reviewing, evaluating or revising Registrant's previous recommendations and/or services.

RETIREMENT PLAN CONSULTING

The Registrant also provides retirement plan consulting/management services, pursuant to which it assists sponsors of self-directed retirement plans organized under the Employee Retirement Security Act of 1974 ("ERISA"). The terms and conditions of the engagement shall be set forth in a Retirement Plan Services Agreement between the Registrant and the plan sponsor.

If the plan sponsor engages the Registrant in an ERISA Section 3(21) capacity, the Registrant will assist with the selection and/or monitoring of investment options (generally open-end mutual funds and exchange traded funds) from which plan participants shall choose in self-directing the investments for their individual plan retirement accounts. If the plan sponsor chooses to engage the Registrant in an ERISA Section 3(38) capacity, Registrant may provide the same services as described above, but may also: create specific asset allocation models that Registrant manages on a discretionary basis, which plan participants may choose in managing their individual retirement account; and/or modify the investment options made available to plan participants on a discretionary basis.

FAMILY OFFICES

The Registrant provides a range of customized family office services, including investment advice, to a few select clients. Registrant family office services may include advice and recommendations about matters including asset allocation; portfolio construction; financial planning - including family governance and succession planning; investment manager selection; service provider selection; service provider fee and expense negotiation; investment transaction verification; and consolidated asset and investment portfolio reporting. Registrant does not provide tax, legal or accounting advice. Each of our family office clients are supported by a team led by a designated Advisor and is supported by our in-house investment team and other subject matter experts and consultants the Registrant may retain to provide us with client-support services, including investment advice. As discussed in Item 5 below, our family office clients will pay Registrant fees based upon certain factors.

MISCELLANEOUS

Limitations of Financial Planning and Non-Investment Consulting/Implementation Services. As indicated above, to the extent requested by a client, Registrant may provide financial planning and related consulting services. Neither the Registrant nor its investment adviser representatives assist clients with the implementation of any financial plan unless they have agreed to do so in writing. The Registrant does not monitor a client's financial plan, and it is the client's responsibility to revisit the financial plan with the Registrant, if desired.

The Registrant may provide financial planning and related consulting services regarding non-investment related matters, such as estate planning, tax planning, insurance, etc. The Registrant does not serve as an attorney, accountant, or insurance agency, and no portion of its services should be construed as legal or accounting services. Accordingly, the Registrant does not prepare estate planning documents, tax returns or sell insurance products. To the extent requested by a client, we may recommend the services of other professionals for certain non-investment implementation purpose (i.e., attorneys, accountants, insurance, etc.). Clients are reminded that they are under no obligation to engage the services of any such recommended professional.

The client retains absolute discretion over all such implementation decisions and is free to accept or reject any recommendation made by Registrant or its representatives. If the client engages any unaffiliated recommended professional, and a dispute arises thereafter relative to such engagement, the client agrees to seek recourse exclusively from and against the engaged professional. At all times, the engaged licensed professional(s) (i.e., attorney, accountant, insurance agent, etc.), and not the Registrant, shall be responsible for the quality and competency of the services provided.

Retirement Rollovers-Potential for Conflict of Interest. A client or prospective client leaving an employer typically has four options regarding an existing retirement plan (and may engage in a combination of these options): (i) leave the money in the former employer's plan, if permitted, (ii) roll over the assets to the new employer's plan, if one is available and rollovers are permitted, (iii) roll over to an Individual Retirement Account ("IRA"), or (iv) cash out the account value (which could, depending upon the client's age, result in adverse tax consequences). If Registrant recommends that a client roll over their retirement plan assets into an account to be managed by Registrant, such a recommendation creates a conflict of interest if Registrant will earn new (or increase its current) compensation as a result of the rollover. If Registrant provides a recommendation as to whether a client should engage in a rollover or not (whether it is from an employer's plan or an existing IRA), Registrant is acting as a fiduciary within the meaning of Title I of the Employee Retirement Income Security Act and/or the Internal Revenue Code, as applicable, which are laws governing retirement accounts. No client is under any obligation to roll over retirement plan assets to an account managed by Registrant, whether it is from an employer's plan or an existing IRA.

Use of Mutual and Exchange Traded Funds. Most mutual funds and exchange traded funds are available directly to the public. Therefore, a prospective client can obtain many of the funds that may be utilized by Registrant independent of engaging Registrant as an investment advisor. However, if a prospective client determines to do so, he/she will not receive the Registrant's initial and ongoing investment advisory services.

In addition to Registrant's investment advisory fee described below, and transaction and/or custodial fees discussed above/below, clients will also incur, relative to all mutual fund and exchange traded fund purchases, charges imposed at the fund level (e.g., management fees and other fund expenses).

Mutual and Exchange Traded Funds with Liquidity Constraints. The Registrant may utilize mutual funds and/or exchange traded funds that provide for limited liquidity, generally on a quarterly basis. Therefore, if we determined that the fund was no longer performing or if you ever determined to transfer your account, the Fund could not be sold or transferred immediately. Rather, sale or transfer would need to await the quarterly

permitted sale date. Moreover, the eventual net asset value for the fund could be substantially different (positive or negative) than the Fund value on the date that the sale was requested. There can be no assurance that any such strategy will prove profitable or successful. In light of these enhanced risks/rewards, a client may direct us, in writing, not to employ any or all such strategies for the client's account.

Pontera. The Registrant uses Pontera, a third-party platform to facilitate the management of held away assets such as defined contribution plan participant accounts, with discretion. Those clients who choose to engage the Registrant to service their held away accounts will be provided a link to connect their outside accounts to the platform. Once the client's account(s) is connected to the platform, Registrant will review the client's current account allocations. Registrant will rebalance the connected outside accounts consistent with the client's investment goals and risk tolerance. Client account(s) will be reviewed at least quarterly.

Cash Positions. Registrant continues to treat cash as an asset class. As such, unless determined to the contrary by Registrant, all cash positions (money markets, etc.) shall continue to be included as part of assets under management for purposes of calculating Registrant's advisory fee. At any specific point in time, depending upon perceived or anticipated market conditions/events (there being no guarantee that such anticipated market conditions/events will occur), Registrant may maintain cash positions for defensive purposes. In addition, while assets are maintained in cash, such amounts could miss market advances. Depending upon current yields, at any point in time, Registrant's advisory fee could exceed the interest paid by the client's money market fund.

Cash Sweep Accounts. Certain account custodians can require that cash proceeds from account transactions or new deposits, be swept to and/or initially maintained in a specific custodian designated sweep account. The yield on the sweep account will generally be lower than those available for other money market accounts. When this occurs, to help mitigate the corresponding yield dispersion Registrant shall (usually within 30 days thereafter) generally (with exceptions) purchase a higher yielding money market fund (or other type security) available on the custodian's platform, unless Registrant reasonably anticipates that it will utilize the cash proceeds during the subsequent 30-day period to purchase additional investments for the client's account. Exceptions and/or modifications can and will occur with respect to all or a portion of the cash balances for various reasons, including, but not limited to the amount of dispersion between the sweep account and a money market fund, the size of the cash balance, an indication from the client of an imminent need for such cash, or the client has a demonstrated history of writing checks from the account.

The above does not apply to the cash component maintained within a Registrant actively managed investment strategy (the cash balances for which shall generally remain in the custodian designated cash sweep account), an indication from the client of a need for access to such cash, assets allocated to an unaffiliated investment manager and cash balances maintained for fee billing purposes.

The client shall remain exclusively responsible for yield dispersion/cash balance decisions and corresponding transactions for cash balances maintained in any Registrant unmanaged accounts.

Socially Responsible (ESG) Investing Limitations. Socially Responsible Investing involves the incorporation of Environmental, Social and Governance (“ESG”) considerations into the investment due diligence process. ESG investing incorporates a set of criteria/factors used in evaluating potential investments: Environmental (i.e., considers how a company safeguards the environment); Social (i.e., the manner in which a company manages relationships with its employees, customers, and the communities in which it operates); and Governance (i.e., company management considerations). The number of companies that meet an acceptable ESG mandate can be limited when compared to those that do not and could underperform broad market indices. Investors must accept these limitations, including potential for underperformance.

Correspondingly, the number of ESG mutual funds and exchange-traded funds are limited when compared to those that do not maintain such a mandate. As with any type of investment (including any investment and/or investment strategies recommended and/or undertaken by Registrant), there can be no assurance that investment in ESG securities or funds will be profitable, or prove successful. Registrant generally relies on the assessments undertaken by the unaffiliated mutual fund, exchange traded fund or separate account portfolio manager to determine that the fund’s or portfolio’s underlying company securities meet a socially responsible mandate.

Portfolio Activity. Registrant has a fiduciary duty to provide services consistent with the client’s best interest. As part of its investment advisory services, Registrant will review client portfolios on an ongoing basis to determine if any changes are necessary based upon various factors, including, but not limited to, investment performance, fund manager tenure, style drift, account additions/withdrawals, and/or a change in the client’s investment objective. Based upon these factors, there may be extended periods of time when Registrant determines that changes to a client’s portfolio are neither necessary nor prudent. Clients nonetheless remain subject to the fees described in Item 5 below during periods of account inactivity.

Bitcoin, Cryptocurrency, and Digital Assets. For clients who want exposure to Bitcoin, cryptocurrencies, or digital assets, the Registrant will advise the client to consider a potential investment in corresponding exchange traded securities, or an allocation to separate account managers and/or private funds that provide cryptocurrency exposure. Bitcoin and cryptocurrencies are digital assets that can be used for various purposes, including transactions, decentralized applications, and speculative investments. Most digital assets use blockchain technology, an advanced cryptographic digital ledger to secure transactions and validate asset ownership. Unlike conventional currencies issued and regulated by monetary authorities, cryptocurrencies generally operate without centralized control, and their value is determined by market supply and demand. While regulatory oversight of digital assets has evolved significantly since their inception, they remain subject to variable regulatory treatment globally, which may impact their risk profile and liquidity. Given that cryptocurrency investments are speculative and subject to extreme price volatility, liquidity constraints, and the potential for total loss of principal, the Registrant does not exercise discretionary authority to purchase cryptocurrency investments for client accounts. Any investment in cryptocurrencies must be expressly authorized by the client.

The Registrant does not recommend or advocate for the purchase of, or investment in, Bitcoin, cryptocurrencies, or digital assets. Such investments are considered speculative and carry significant risk. Clients who authorize the purchase of a cryptocurrency

investment must be prepared for the potential for liquidity constraints, extreme price volatility, regulatory risk, technological risk, security and custody risk, and complete loss of principal.

Miscellaneous Investments. The Registrant generally does not recommend structured products or private investment funds. However, the Registrant may, to the extent requested by the client, review investments previously purchased by the client prior to the client's engagement of the Registrant, including structured products and private investment funds. The Registrant will not include any previously purchased structured product or private investment fund assets for the purpose of calculating its advisory fee per the fee schedule at Item 5 below. At no time shall the Registrant accept responsibility for the performance of any such previously purchased assets.

Business Consulting Services. The Registrant also provides non-investment related business consulting services to individuals and entities per the terms and conditions of a written agreement between the Registrant and the client. The amount of the annual fee will be based on a fixed annual fee basis, the amount of which fee shall depend upon the scope and complexity of the services to be provided.

Client Obligations. In performing its services, Registrant shall not be required to verify any information received from the client or from the client's other professionals and is expressly authorized to rely thereon. Moreover, each client is advised that it remains their responsibility to promptly notify the Registrant if there is ever any change in their financial situation or investment objectives for the purpose of reviewing, evaluating or revising Registrant's previous recommendations and/or services.

Artificial Intelligence. The Registrant may use certain Artificial Intelligence ("AI") tools in connection with its investment advisory services. The Registrant has adopted an AI Policy that governs the appropriate use of AI tools to ensure that the Registrant and its employees abide by their fiduciary duty and comply with all applicable regulations. AI tools are not used by the Registrant as a substitute for professional judgment by the Registrant or its employees, and all AI generated output is reviewed by the Registrant for accuracy. All investment decisions and recommendations are made and approved by the Registrant. The use of AI tools does not guarantee the accuracy of analyses or the success of any investment strategy. Clients should not assume that reliance on AI tools results in better performance or reduces risk. AI tools involve limitations and risks that the Registrant monitors and manages. These risks include, but are not limited to, data security concerns, potential inaccuracies, and possible algorithmic biases. To mitigate these risks, the Registrant has implemented controls such as pre-approval requirements for AI tools, restrictions on providing nonpublic personal information to public AI systems, vendor due diligence, review of AI-generated materials, and employee training on appropriate AI usage.

Cybersecurity Risk. The information technology systems and networks that Registrant and its third-party service providers use to provide services to Registrant's clients employ various controls that are designed to prevent cybersecurity incidents stemming from intentional or unintentional actions that could cause significant interruptions in Registrant's operations and/or result in the unauthorized acquisition or use of clients' confidential or non-public personal information. Clients and Registrant are nonetheless subject to the risk of cybersecurity incidents that could ultimately cause them to incur financial losses and/or other adverse consequences. Although the Registrant has

established processes to reduce the risk of cybersecurity incidents, there is no guarantee that these efforts will always be successful, especially considering that the Registrant does not control the cybersecurity measures and policies employed by third-party service providers, issuers of securities, broker-dealers, qualified custodians, governmental and other regulatory authorities, exchanges and other financial market operators and providers.

Client Privacy and Confidentiality. The Registrant maintains policies and procedures designed to help protect the confidentiality and security of client nonpublic personal information (“NPPI”). NPPI includes, but is not limited to, social security numbers, credit or debit card numbers, state identification card numbers, driver’s license number and account numbers. The Registrant maintains administrative, technical, and physical safeguards designed to protect such information from unauthorized access, use, loss, or destruction. These safeguards include controls relating to data access, information security, and incident response, and are reviewed to address changes in risk and business. Client information may be disclosed in response to regulatory requests, legal obligations, or as otherwise permitted by law, and any such disclosure is made in accordance with applicable privacy and confidentiality requirements.

The Registrant may engage non-affiliated service providers in connection with providing advisory services, and such providers may have access to client NPPI, as necessary, to perform their functions. The Registrant confirms that service providers maintain safeguards designed to protect client information from unauthorized access or use and provide notice to the Registrant in the event of a cybersecurity incident involving client information maintained by the service provider. While the Registrant maintains policies and procedures designed to protect client information, such measures cannot eliminate all risk. The Registrant will notify clients in the event of a data breach involving their NPPI as may be required by applicable state and federal laws.

Disclosure Statement. A copy of the Registrant’s written Brochure and Client Relationship Summary, as set forth on Part 2A of Form ADV and Form CRS respectively, shall be provided to each client prior to, or contemporaneously with, the execution of the *Investment Advisory Agreement* or *Financial Planning and Consulting Agreement*.

- C. The Registrant shall provide investment advisory services specific to the needs of each client. Prior to providing investment advisory services, an investment adviser representative will ascertain each client’s investment objective(s). Thereafter, the Registrant shall allocate and/or recommend that the client allocate investment assets consistent with the designated investment objective(s). The client may, at any time, impose reasonable restrictions, in writing, on the Registrant’s services.
- D. The Registrant does not participate in a wrap fee program.
- E. As of December 31, 2025, the Registrant had \$2,005,136,361 in assets under management on a discretionary basis.

Item 5 Fees and Compensation

A.

INVESTMENT ADVISORY SERVICES

The Registrant's annual investment advisory fee shall be based upon a percentage (%) of the market value and type of assets placed under the Registrant's management, accrued interest on bonds and dividends payable on mutual funds (between 0.65% and 1.00%) as follows:

<u>Market Value of Portfolio</u>	<u>% of Assets</u>
\$1,000,000 - \$3,000,000	1.00%
\$3,000,001 - \$5,000,000	0.85%
\$5,000,001 - \$10,000,000	0.75%
Over \$10,000,000	0.65%

*Registrant, in its sole discretion, may provide investment advisory services to a client with less than \$1,000,000 in assets under management for a minimum annual flat fee of \$10,000. In such instances, the minimum annual fee of \$10,000 will be billed quarterly, until such time as the client's assets reach \$1,000,000. Clients with less than \$1,000,000 in assets under management will therefore pay a higher percentage fee than if it placed \$1,000,000 under Registrant's management.

** The Registrant's investment advisory fee is negotiable at its discretion, depending upon objective and subjective factors including but not limited to: the amount of assets to be managed; portfolio composition; the scope and complexity of the engagement; the anticipated number of meetings and servicing needs; related accounts; future earning capacity; anticipated future additional assets; the professional(s) rendering the service(s); prior relationships with the Registrant and/or its representatives, and negotiations with the client. As a result of these factors, similarly situated clients could pay different fees, the services to be provided by the Registrant to any particular client could be available from other advisers at lower fees, and certain clients may have fees different than those specifically set forth above.

Custodial Statement Valuation. Client's custodial statements will generally not account for any accrued interest on bonds or dividends payable on mutual funds until one or two days into the following quarter. Additionally, deposits to or withdrawals from a client's account on the last billing day of the month may not be reflected on custodian's current statement. These transactions will appear in the following statement reflecting the actual and accurate date of the deposit or withdrawal. Therefore, in some instances, what the Registrant uses as the client's quarter end balance may be different from what the client's custodial statements reflects as an ending balance.

FINANCIAL PLANNING AND CONSULTING SERVICES (STAND-ALONE)

Registrant's planning and consulting fees are negotiable, but generally range from \$1,500 to \$10,000 on a fixed fee basis, and from \$125 to \$250 on an hourly rate basis, depending upon the level and scope of the service(s) required and the professional(s) rendering the service(s).

RETIREMENT PLAN CONSULTING

The Registrant may also be engaged to provide investment recommendations to employee profit sharing and 401k plans pursuant to ERISA Section 404(c). The Registrant's fee schedule for these engagements is as follows:

<u>Market Value of Plan Assets</u>	<u>% of Assets</u>
First \$2,500,000	0.50%
\$2,500,001 - \$5,000,000	0.25%
\$5,000,001 - \$10,000,000	0.15%
Over \$10,000,000	0.10%

FAMILY OFFICES

The specific manner in which our family office clients are charged fees is established in a written agreement between each client and Registrant. Fees may differ from the fees in the schedules disclosed above, and each family office will be subject to distinct fee structures based upon certain factors. Registrant may, in its sole discretion, charge a fee based upon the level of service, the level of complexity involved, the expertise of the adviser providing the services, anticipated future earning capacity, anticipated future additional assets, dollar amount of assets to be managed, related accounts, account composition, complexity of the engagement, anticipated services to be rendered and the number of hours spent providing services to the client, grandfathered fee schedules, employees and family members, courtesy accounts, competition, and negotiations with client.

- B. Clients may elect to have the Registrant's advisory fees deducted from their custodial account. Both Registrant's *Investment Advisory Agreement* and the custodial/clearing agreement may authorize the custodian to debit the account for the amount of the Registrant's investment advisory fee and to directly remit that management fee to the Registrant in compliance with regulatory procedures.

In the limited event that the Registrant bills the client directly, payment is due upon receipt of the Registrant's invoice. The Registrant shall deduct fees and/or bill clients quarterly in advance, based upon the market value of the assets on the last business day of the previous quarter.

- C. As discussed below, unless the client directs otherwise or an individual client's circumstances require, the Registrant shall generally recommend that Charles Schwab & Co. Inc. ("*Schwab*") serve as the broker-dealer/custodian for client investment management assets.

Broker-dealers such as *Schwab* charge brokerage commissions, transaction, and/or other type fees for effecting certain types of securities transactions (i.e., including transaction fees for certain mutual funds, and mark-ups and mark-downs charged for fixed income transactions, etc.). The types of securities for which transaction fees, commissions, and/or other type fees (as well as the amount of those fees) shall differ depending upon the broker-dealer/custodian. While certain custodians, including *Schwab*, generally (with the potential exception for large orders) do not currently charge fees on individual equity transactions (including ETFs), others do.

There can be no assurance that *Schwab* will not change their transaction fee pricing in the future.

Schwab may also assess fees to clients who elect to receive trade confirmations and account statements by regular mail rather than electronically.

Clients will incur, in addition to Registrant's investment management fee, brokerage commissions and/or transaction fees, and, relative to all mutual fund and exchange traded fund purchases, charges imposed at the fund level (e.g., management fees and other fund expenses).

- D. Registrant's annual investment advisory fee shall be prorated and paid quarterly, in advance, based upon the market value of the assets on the last business day of the previous quarter, unless otherwise agreed.

The *Investment Advisory Agreement* between the Registrant and the client will continue in effect until terminated by either party by written notice in accordance with the terms of the *Investment Advisory Agreement*. Upon termination, the Registrant shall refund the pro-rated portion of the advanced advisory fee paid based upon the number of days remaining in the billing quarter.

- E. Neither the Registrant, nor its representatives accept compensation from the sale of securities or other investment products.

Item 6 Performance-Based Fees and Side-by-Side Management

Neither the Registrant nor any supervised person of the Registrant accepts performance-based fees.

Item 7 Types of Clients

The Registrant's clients shall generally include individuals, pension and profit sharing plans, business entities, trusts, estates and charitable organizations.

Item 8 Methods of Analysis, Investment Strategies and Risk of Loss

- A. The Registrant may utilize the following methods of security analysis:
- Fundamental - (analysis performed on historical and present data, with the goal of making financial forecasts)
 - Technical – (analysis performed on historical and present data, focusing on price and trade volume, to forecast the direction of prices)

The Registrant may utilize the following investment strategies when implementing investment advice given to clients:

- Long Term Purchases (securities held at least a year)
- Short Term Purchases (securities sold within a year)

Investment Risk. Different types of investments involve varying degrees of risk, and it should not be assumed that future performance of any specific investment or investment strategy (including the investments and/or investment strategies recommended or undertaken by the Registrant) will be profitable or equal any specific performance level(s).

Investors generally face the following types of investment risks:

- **Interest-rate Risk:** Fluctuations in interest rates may cause investment prices to fluctuate. For example, when interest rates rise, yields on existing bonds become less attractive, causing their market values to decline.
- **Market Risk:** The price of a security, bond, or mutual fund may drop in reaction to tangible and intangible events and conditions. This type of risk may be caused by external factors independent of the fund's specific investments as well as due to the fund's specific investments. Additionally, each security's price will fluctuate based on market movement and emotion, which may, or may not be due to the security's operations or changes in its true value. For example, political, economic and social conditions may trigger market events which are temporarily negative, or temporarily positive.
- **Inflation Risk:** When any type of inflation is present, a dollar today will not buy as much as a dollar next year, because purchasing power is eroding at the rate of inflation.
- **Reinvestment Risk:** This is the risk that future proceeds from investments may have to be reinvested at a potentially lower rate of return (i.e., interest rate). This primarily relates to fixed income securities.
- **Liquidity Risk:** Liquidity is the ability to readily convert an investment into cash. Generally, assets are more liquid if many traders are interested in a standardized product. For example, Treasury Bills are highly liquid, while real estate properties are not.
- **Financial Risk:** Excessive borrowing to finance a business' operations increases the risk of profitability, because the company must meet the terms of its obligations in good times and bad. During periods of financial stress, the inability to meet loan obligations may result in bankruptcy and/or a declining market value.

B. The Registrant's methods of analysis and investment strategies do not present any significant or unusual risks.

However, every method of analysis has its own inherent risks. To perform an accurate market analysis the Registrant must have access to current/new market information. The Registrant has no control over the dissemination rate of market information; therefore, unbeknownst to the Registrant, certain analyses may be compiled with outdated market information, severely limiting the value of the Registrant's analysis. Furthermore, an accurate market analysis can only produce a forecast of the direction of market values. There can be no assurances that a forecasted change in market value will materialize into actionable and/or profitable investment opportunities.

The Registrant's primary investment strategies - Long Term Purchases and Short Term Purchases - are fundamental investment strategies. However, every investment strategy has its own inherent risks and limitations. For example, longer term investment strategies

require a longer investment time period to allow for the strategy to potentially develop. Shorter term investment strategies require a shorter investment time period to potentially develop but, as a result of more frequent trading, may incur higher transactional costs when compared to a longer term investment strategy.

- C. Currently, the Registrant primarily allocates client investment assets among various individual equity (stocks) and debt (bonds) securities, mutual funds, exchange-traded funds and covered calls, on a discretionary basis in accordance with the client's designated investment objective(s).

Borrowing Against Assets/Risks. A client who has a need to borrow money could determine to do so by using:

- **Margin**-The account custodian or broker-dealer lends money to the client. The custodian charges the client interest for the right to borrow money, and uses the assets in the client's brokerage account as collateral; and,
- **Pledged Assets Loan**- In consideration for a lender (i.e., a bank, etc.) to make a loan to the client, the client pledges its investment assets held at the account custodian as collateral;

These above-described collateralized loans are generally utilized because they typically provide more favorable interest rates than standard commercial loans. These types of collateralized loans can assist with a pending home purchase, permit the retirement of more expensive debt, or enable borrowing in lieu of liquidating existing account positions and incurring capital gains taxes. However, such loans are not without potential material risk to the client's investment assets. The lender (i.e., custodian, bank, etc.) will have recourse against the client's investment assets in the event of loan default or if the assets fall below a certain level. For this reason, Registrant does not recommend such borrowing unless it is for specific short-term purposes (i.e., a bridge loan to purchase a new residence). Registrant does not recommend such borrowing for investment purposes (i.e., to invest borrowed funds in the market). Regardless, if the client was to determine to utilize margin or a pledged assets loan, the following economic benefits would inure to Registrant:

- by taking the loan rather than liquidating assets in the client's account, Registrant continues to earn a fee on such Account assets; and,
- if the client invests any portion of the loan proceeds in an account to be managed by Registrant, Registrant will receive an advisory fee on the invested amount; and,
- if Registrant's advisory fee is based upon the higher margined account value, Registrant will earn a correspondingly higher advisory fee. This could provide Registrant with a disincentive to encourage the client to discontinue the use of margin.

The Client must accept the above risks and potential corresponding consequences associated with the use of margin or a pledged assets loans.

Item 9 Disciplinary Information

The Registrant has not been the subject of any disciplinary actions.

Item 10 Other Financial Industry Activities and Affiliations

- A. Neither the Registrant, nor its representatives, are registered or have an application pending to register, as a broker-dealer or a registered representative of a broker-dealer.
- B. Neither the Registrant, nor its representatives, are registered or have an application pending to register, as a futures commission merchant, commodity pool operator, a commodity trading advisor, or a representative of the foregoing.
- C. The Registrant has no other relationship or arrangement with a related person that is material to its advisory business
- D. The Registrant does not receive, directly or indirectly, compensation from investment advisors that it recommends or selects for its clients.

Item 11 Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

- A. The Registrant maintains an investment policy relative to personal securities transactions. This investment policy is part of Registrant's overall Code of Ethics, which serves to establish a standard of business conduct for all of Registrant's Representatives that is based upon fundamental principles of openness, integrity, honesty and trust, a copy of which is available upon request.

In accordance with Section 204A of the Investment Advisers Act of 1940, the Registrant also maintains and enforces written policies reasonably designed to prevent the misuse of material non-public information by the Registrant or any person associated with the Registrant.

- B. Neither the Registrant nor any related person of Registrant recommends, buys, or sells for client accounts, securities in which the Registrant or any related person of Registrant has a material financial interest.
- C. The Registrant and/or representatives of the Registrant *may* buy or sell securities that are also recommended to clients. This practice may create a situation where the Registrant and/or representatives of the Registrant are in a position to materially benefit from the sale or purchase of those securities. Therefore, this situation creates a conflict of interest. Practices such as "scalping" (i.e., a practice whereby the owner of shares of a security recommends that security for investment and then immediately sells it at a profit upon the rise in the market price which follows the recommendation) could take place if the Registrant did not have adequate policies in place to detect such activities. In addition, this requirement can help detect insider trading, "front-running" (i.e., personal trades executed prior to those of the Registrant's clients) and other potentially abusive practices.

The Registrant has a personal securities transaction policy in place to monitor the personal securities transactions and securities holdings of each of the Registrant's "Access Persons". The Registrant's securities transaction policy requires that an Access Person of the Registrant must provide the Chief Compliance Officer or his/her designee with a written report of their current securities holdings within ten (10) days after becoming an Access Person. Additionally, each Access Person must provide or make available to the Chief Compliance Officer or his/her designee a list of reportable

transactions each calendar quarter as well as a written annual report of the Access Person's securities holdings; provided, however that at any time that the Registrant has only one Access Person, he or she shall not be required to submit any securities report described above.

- D. The Registrant and/or representatives of the Registrant *may* buy or sell securities, at or around the same time as those securities are recommended to clients. This practice creates a situation where the Registrant and/or representatives of the Registrant are in a position to materially benefit from the sale or purchase of those securities. Therefore, this situation creates a conflict of interest. As indicated above in Item 11 C, the Registrant has a personal securities transaction policy in place to monitor the personal securities transaction and securities holdings of each of Registrant's Access Persons.

Item 12 Brokerage Practices

- A. In the event that the client requests that the Registrant recommend a broker-dealer/custodian for execution and/or custodial services (exclusive of those clients that may direct the Registrant to use a specific broker-dealer/custodian), Registrant generally recommends that investment management accounts be maintained at *Schwab*. Prior to engaging Registrant to provide investment management services, the client will be required to enter into a formal *Investment Advisory Agreement* with Registrant setting forth the terms and conditions under which Registrant shall manage the client's assets, and a separate custodial/clearing agreement with each designated broker-dealer/custodian.

Factors that the Registrant considers in recommending *Schwab* (or any other broker-dealer/custodian, investment platform and/or mutual fund sponsor) include historical relationship with the Registrant, financial strength, reputation, execution capabilities, pricing, research, and service. Although the commissions and/or transaction fees paid by Registrant's clients shall comply with the Registrant's duty to seek best execution, a client may pay a commission that is higher than another qualified broker-dealer might charge to effect the same transaction where the Registrant determines, in good faith, that the commission/transaction fee is reasonable. In seeking best execution, the determinative factor is not the lowest possible cost, but whether the transaction represents the best qualitative execution, taking into consideration the full range of a broker-dealer's services, including the value of research provided, execution capability, commission rates, and responsiveness. Accordingly, although Registrant will seek competitive rates, it may not necessarily obtain the lowest possible commission rates for client account transactions. The brokerage commissions or transaction fees charged by the designated broker-dealer/custodian are exclusive of, and in addition to, Registrant's investment management fee. The Registrant's best price execution responsibility is qualified if securities that it purchases for client accounts are mutual funds that trade at net asset value as determined at the daily market close.

1. Research and Additional Benefits

Although not a material consideration when determining whether to recommend that a client utilize the services of a particular broker-dealer/custodian, Registrant receives from *Schwab* (or another broker-dealer/custodian, investment platform, unaffiliated investment manager, vendor, unaffiliated product/fund sponsor, or vendor) without cost (and/or at a discount) support services and/or products, certain of which assist the

Registrant to better monitor and service client accounts maintained at such institutions. Included within the support services that may be obtained by the Registrant may be investment-related research, pricing information and market data, software and other technology that provide access to client account data, compliance and/or practice management-related publications, discounted or gratis consulting services, discounted and/or gratis attendance at conferences, meetings, and other educational and/or social events, marketing support, computer hardware and/or software and/or other products used by Registrant in furtherance of its investment advisory business operations.

As indicated above, certain of the support services and/or products received may assist the Registrant in managing and administering client accounts. Others do not directly provide such assistance, but rather assist the Registrant to manage and further develop its business enterprise.

There is no corresponding commitment made by the Registrant to *Schwab* or any other entity to invest any specific amount or percentage of client assets in any specific mutual funds, securities or other investment products as result of the above arrangement.

“iRebal”

Registrant considers a number of factors in selecting brokers and custodians at which to locate (or recommend location of) its client accounts, including, but not limited to, execution capability, experience and financial stability, reputation and the quality of services provided. In selecting a broker and custodian for certain of its current and future client accounts, Registrant takes into consideration its current arrangement as to obtaining price discounts for an automatic portfolio rebalancing service for advisors known as “iRebal.”

The standard iRebal annual license fee applicable to Registrant is approximately \$50,000. That fee is subject to specified reductions (and even complete waiver) if specified amounts of client taxable assets are either already on the custodial platform or are committed to be placed on it.

The non-taxable assets excluded from the maintenance and commitment levels described above are those that constitute “plan assets” of plans subject to Title 1 of the Employee Retirement Income Security Act of 1974, amended, or of plans as defined in Section 4975 of the Internal Revenue Code (which include IRAs).

If Registrant does not maintain the relevant level of taxable assets on the custodial platform, Registrant may be required to make a fee payment to the custodian calculated on the basis of the shortfall.

Although Registrant believes that the products and services offered by recommended custodians are competitive in the market place for similar services offered by other broker-dealers or custodians, the arrangement with the custodian as to the iRebal service may affect Registrant’s independent judgment in selecting or maintaining a specific broker or custodian for client accounts.

The Registrant’s Chief Compliance Officer, Kimberlee M. Brown, remains available to address any questions that a client or prospective client may have regarding the

above arrangements and the corresponding conflicts of interest presented by such arrangements.

2. Registrant does not receive referrals from broker-dealers.
3. The Registrant does not generally accept directed brokerage arrangements (when a client requires that account transactions be effected through a specific broker-dealer). In such client directed arrangements, the client will negotiate terms and arrangements for their account with that broker-dealer, and Registrant will not seek better execution services or prices from other broker-dealers or be able to "batch" the client's transactions for execution through other broker-dealers with orders for other accounts managed by Registrant. As a result, client may pay higher commissions or other transaction costs or greater spreads, or receive less favorable net prices, on transactions for the account than would otherwise be the case.

In the event that the client directs Registrant to effect securities transactions for the client's accounts through a specific broker-dealer, the client correspondingly acknowledges that such direction may cause the accounts to incur higher commissions or transaction costs than the accounts would otherwise incur had the client determined to effect account transactions through alternative clearing arrangements that may be available through Registrant. Higher transaction costs adversely impact account performance.

Transactions for directed accounts will generally be executed following the execution of portfolio transactions for non-directed accounts.

- B. To the extent that the Registrant provides investment management services to its clients, the transactions for each client account generally will be effected independently, unless the Registrant decides to purchase or sell the same securities for several clients at approximately the same time. The Registrant may (but is not obligated to) combine or "bunch" such orders to seek best execution, to negotiate more favorable commission rates or to allocate equitably among the Registrant's clients differences in prices and commissions or other transaction costs that might have been obtained had such orders been placed independently. Under this procedure, transactions will be averaged as to price and will be allocated among clients in proportion to the purchase and sale orders placed for each client account on any given day. The Registrant shall not receive any additional compensation or remuneration as a result of such aggregation.

Item 13 Review of Accounts

- A. For those clients to whom Registrant provides investment supervisory services, account reviews are conducted on an ongoing basis by the Registrant's Principals and/or representatives. All investment supervisory clients are advised that it remains their responsibility to advise the Registrant of any changes in their investment objectives and/or financial situation. All clients (in person or via telephone) are encouraged to review financial planning issues (to the extent applicable), investment objectives and account performance with the Registrant on a regular basis.

- B. The Registrant may conduct account reviews on an other than periodic basis upon the occurrence of a triggering event, such as a change in client investment objectives and/or financial situation, market corrections and client request.
- C. Clients are provided, at least quarterly, with written transaction confirmation notices and regular written summary account statements directly from the broker-dealer/custodian and/or program sponsor for the client accounts. The Registrant may also provide a written periodic report summarizing account activity and performance. Client's custodial statements will generally not account for any accrued interest on bonds or dividends payable on mutual funds until one or two days into the following quarter. Additionally, deposits to or withdrawals from a client's account on the last billing day of the month may not be reflected on custodian's current statement. These transactions will appear in the following statement reflecting the actual and accurate date of the deposit or withdrawal. Therefore, in some instances, what the Registrant uses as the client's quarter end balance may be different from what the client's custodial statements reflects as an ending balance.

Item 14 Client Referrals and Other Compensation

- A. As referenced in Item 12.A.1 above, the Registrant receives an economic benefit from *Schwab*. The Registrant, without cost (and/or at a discount), receives support services and/or products from *Schwab*.

There is no corresponding commitment made by the Registrant to *Schwab* or any other entity to invest any specific amount or percentage of client assets in any specific mutual funds, securities or other investment products as result of the above arrangement.

- B. If a client is introduced to the Registrant by either an unaffiliated or an affiliated promoter, Registrant *may* pay that promoter a referral fee in accordance with the requirements of Rule 206(4)-1 of the Investment Advisers Act of 1940, and any corresponding state securities law requirements. Any such referral fee shall be paid solely from the Registrant's investment management fee and shall not result in any additional charge to the client. If the client is introduced to the Registrant by an unaffiliated promoter, the promoter, at the time of the referral, shall disclose the nature of their promoter relationship.

Item 15 Custody

The Registrant shall have the ability to have its advisory fee for each client debited by the custodian on a quarterly basis. Clients are provided, at least quarterly, with written transaction confirmation notices and regular written summary account statements directly from the broker-dealer/custodian and/or program sponsor for the client accounts. The Registrant may also provide a written periodic report summarizing account activity and performance.

To the extent that the Registrant provides clients with periodic account statements or reports, the client is urged to compare any statement or report provided by the Registrant with the account statements received from the account custodian. The account custodian does not verify the accuracy of the Registrant's advisory fee calculation.

Client's custodial statements will generally not account for any accrued interest on bonds or dividends payable on mutual funds until one or two days into the following quarter. Additionally, deposits to or withdrawals from a client's account on the last billing day of the month may not be reflected on custodian's current statement. These transactions will appear in the following statement reflecting the actual and accurate date of the deposit or withdrawal. Therefore, in some instances, what the Registrant uses as the client's quarter end balance may be different from what the client's custodial statements reflects as an ending balance.

Custody Situations:

In addition, Registrant engages in certain custody-related services and/or practices (e.g., asset transfer authorization and facilitation of client check deposits) that are disclosed at Item 9 of Part 1 of Form ADV. These services and practices are subject to an annual surprise CPA examination.

Item 16 Investment Discretion

The client can determine to engage the Registrant to provide investment advisory services on a discretionary basis. Prior to the Registrant assuming discretionary authority over a client's account, client shall be required to execute an *Investment Advisory Agreement*, naming the Registrant as client's attorney and agent in fact, granting the Registrant full authority to buy, sell, or otherwise effect investment transactions involving the assets in the client's name found in the discretionary account.

Clients who engage the Registrant on a discretionary basis may, at any time, impose restrictions, in writing, on the Registrant's discretionary authority (i.e., limit the types/amounts of particular securities purchased for their account, exclude the ability to purchase securities with an inverse relationship to the market, limit or proscribe the Registrant's use of margin, etc.).

Item 17 Voting Client Securities

- A. The Registrant does not vote client proxies. Clients maintain exclusive responsibility for: (1) directing the manner in which proxies solicited by issuers of securities beneficially owned by the client shall be voted, and (2) making all elections relative to any mergers, acquisitions, tender offers, bankruptcy proceedings or other type events pertaining to the client's investment assets.
- B. Clients will receive their proxies or other solicitations directly from their custodian. Clients may contact the Registrant to discuss any questions they may have with a particular solicitation.

Item 18 Financial Information

- A. The Registrant does not solicit fees of more than \$1,200, per client, six months or more in advance.

- B. The Registrant is unaware of any financial condition that is reasonably likely to impair its ability to meet its contractual commitments relating to its discretionary authority over certain client accounts.
- C. The Registrant has not been the subject of a bankruptcy petition.

The Registrant's Chief Compliance Officer, Kimberlee M. Brown, remains available to address any questions that a client or prospective client may have regarding the above disclosures and arrangements.

JNBA FINANCIAL ADVISORS, LLC
PRIVACY NOTICE

JNBA Financial Advisors, LLC ("JNBA") maintains physical, electronic, and procedural safeguards that comply with federal standards to protect its clients' nonpublic personal information ("information"). Through this policy and its underlying procedures, JNBA attempts to secure the confidentiality of customer records and information and protect against anticipated threats or hazards to the security or integrity of customer records and information.

It is the policy of JNBA to restrict access to and/or the sharing of all current and former clients' information (i.e., information and records pertaining to personal background [including social security number and address], investment objectives, financial situation, financial planning issues, tax information/returns, investment holdings, account numbers, account balances, etc.) to those employees and affiliated/nonaffiliated entities who need to know that information in furtherance of the client's engagement of JNBA.

JNBA shall disclose, as necessary, the client's information: (1) to unaffiliated service providers and vendors in furtherance of establishing, maintaining, and reporting on the client's JNBA relationship (i.e., broker-dealer, account custodian, record keeper, technology, performance reporting, customer relationship management software [CRM], proxy voting, insurance, independent managers, sub-advisers, etc.); (2) required to do so by judicial or regulatory process; or (3) otherwise permitted to do so in accordance with applicable federal and/or state privacy regulations.

However, JNBA does not, and shall not, disclose or share information with any affiliated or nonaffiliated persons, entities or service providers for marketing or any other purposes or reasons not referenced above.

ANY QUESTIONS OR CONCERNS: Should you have any questions regarding the above, please contact Kimberlee M. Brown, Chief Compliance Officer.
